# INVESTING IN A SUSTAINABLE FUTURE

BSc in Sustainable and Green Finance

理學士（可持續發展及綠色金融）

## ABOUT SGFN

BSc in SGFN is the first undergraduate program in Hong Kong specialized in Sustainable and Green Finance. The program is designed to nurture future leaders in sustainable development and green finance, aligning with the Hong Kong Government's vision to position the city as a global hub for green and sustainable finance.

## RISE OF SUSTAINABLE AND GREEN FINANCE

Sustainable and green finance has gained significant momentum in recent years, driven by growing awareness of the environmental and social impacts of economic activities. It encompasses financial practices that facilitate the transition to a low-carbon, sustainable economy while addressing global challenges such as climate change and other sustainability risks.

Unlike traditional finance, which primarily focuses on maximizing financial returns, sustainable and green finance seeks to generate both economic value and positive environmental and social outcomes. In this evolving landscape, sustainability is a key consideration.

## ENRICHMENT ACTIVITIES

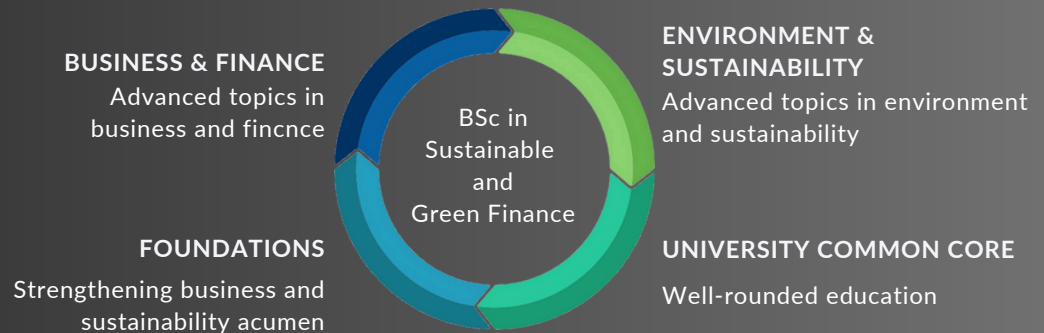

- Career Mentorship
- Company Visit
- Industry Events Participation
- Skills Training Workshop

## PROGRAM HIGHLIGHTS

- SGFN is jointly offered by Business School and Division of Environment and Sustainability.
- A business program overlays business and finance topics with sustainability significance.
- Interdisciplinary broad-based learning experiences cut across finance, business, environment, science, technology, public policy, etc.
- Equip students to have a global perspective with local relevance in green and sustainable development.
- Incorporated insights from the sustainable and green finance industry by having senior professionals to be the program advisers.
